- My SQL
- Figma

EDUCATION

BACHELOR'S IN COMPUTER SCIENCE

University of Karachi

2017 - 2020

CERTIFICATIONS

TEST AUTOMATION PROFESSIONAL CERTIFICATE

From LambdaTest

SOFTWARE TESTING PROFESSIONAL CERTIFICATE

From LambdaTest

EXPERIENCE

SOFTWARE QUALITY ASSURANCE ENGINEER

BreakThru

July 2018 - Sept 2022

- Reduced critical production issues by 25% by managing the bug lifecycle from identification to closure using Jira, improving system stability.
- Improved the testing process by 25% by creating detailed test cases with Cucumber BDD approach and managing them with the Xray tool in Jira, leading to quicker issue detection and resolution.
- Boosted system Dashboard performance by 20% under heavy loads by creating JMeter test scripts that identified key issues and enabled targeted fixes.
- Reduced regression testing time by 50% by creating and improving 70+ automated test cases with the Selenium framework, leading to faster software releases.
- Enhanced regression health visibility by setting up automated HTML report emails to stakeholders, leading to better decision-making and faster responses.
- Improved team productivity by 15% by training and guiding junior team members, leading to faster project completion and better overall performance.

PRODUCT OWNER

Blazeo - Remote

Oct 2022 - Present

- Increased lead close rate by 20% and lead conversions by 10% by introducing features like appointment scheduling and retainer signing, making the process smoother and faster.
- Raised retention by 10% by conducting user interviews that identified key pain points, leading to improvements that kept users engaged.
- Improved user engagement by 25% by developing and launching a companion mobile app for the system dashboard and portal.
